 Iftikhar Shams Niloy |  Iftikhar-Shams-Niloy |

Mohammadpur, Dhaka, Bangladesh

OBJECTIVE

Motivated and enthusiastic CS graduate with a strong foundation in AI and Mobile App Development, I am looking for an interesting and challenging digital company where I can use my programming expertise and passion for innovation to create impactful AI models and mobile applications and nourish my skills in the process.

EDUCATION

- BRAC University** 2025
Bachelor of Science in Computer Science (CS) Dhaka, Bangladesh
 - CGPA: 3.60/4.00
- Dhaka Residential Model College** 2021
Higher Secondary Certificate (Science) Dhaka, Bangladesh
 - GPA: 5.00/5.00
- Dhaka Residential Model College** 2018
Secondary School Certificate (Science) Dhaka, Bangladesh
 - GPA: 5.00/5.00

WORK EXPERIENCE

- Bini (Subsidiary of ShopUp)** January, 2026 - Present
Mobile App Developer (Flutter) Dhaka, Bangladesh
- ScaleUp Ads Agency** September, 2025 - November, 2025
AI and Mobile App Developer Dhaka, Bangladesh

PROJECTS

- Photography Assistant: An AI utilizes multiple detection system to generate photography suggestions** June, 2025
Tools: Python, TensorFlow, Jupyternotebook, Pandas, Seaborn, Numby, Scikit-learn, Matplotlib Thesis
 - Utilizes Composition, Orientation and Subject Detection to generate photography suggestions.
 - The suggestion includes the closest composition, followed by the necessary rotation and the required movement for better composition.
- Stress Level Detection System: An AI to detect stress level of a person** January, 2025 
Tools: Python, Jupyternotebook, Pandas, Seaborn, Numby, Scikit-learn, Matplotlib
 - Made using ML algorithms along with proper pre-processing on the dataset for better accuracy and result.
 - Can be implemented in smart watches as feature to detect stress level of the user.
- Car Price Prediction Using Neural Networks** February, 2025 
Tools: Python, Jupyternotebook, TensorFlow, Pandas, Scikit-learn, Matplotlib
 - A Neural Network based DL model that predicts car price given certain features.
 - Transfer learning and custom Neural Network model has been made to compare and fine-tune the system.

SKILLS

- Programming & Markup Languages:**
 - Proficient in:** Python, LaTeX, HTML, CSS, XML, Java, Kotlin
 - Familiar with:** JavaScript, C, C++, PHP
- Android Development Tools:**
 - Proficient in:** Android Studio
- AI Model Development:**
 - Proficient in:** Machine Learning, Deep Learning, TensorFlow, Pandas, Seaborn, Numpy, Scikit-learn, Matplotlib
 - Familiar with:** R language, Labelme
- Communication Skills:**
 - Proficient in:** Bengali, English

CERTIFICATIONS

- Applied Machine Learning in Python [Coursera]**  November, 2024
- Exploratory Data Analysis in Python [Datacamp]**  February, 2024
- Machine Learning with Python [Coursera]**  January, 2023
- Python and Statistics for Financial Analysis [Coursera]**  November, 2022
